"We are excited to start 2018 with strong financial and operating performance in the first quarter," stated Mr. Yiding Sun, Chief Executive Officer of RISE. "During the quarter, we expanded our geographic presence to five additional cities through our franchised learning centers, bringing the total number of learning centers in our network to 284, across 90 cities in mainland China, Hong Kong and Singapore. In addition, as part of our ongoing efforts to ensure optimal learning experiences for all students across our entire network, we continued to upgrade our flagship products while integrating new programs to improve the effectiveness of our course offerings. Our student retention rate increased to 71% in the first quarter of 2018 from 70% in the same period last year, which is a testament to our commitment to product R&D and our unwavering focus on improving students' learning experience. We are confident that our innovation capabilities, geographic presence, and global partnerships will position us at the forefront of the rapidly growing junior ELT market in China."

Ms. Chelsea Wang, Chief Financial Officer of RISE, stated, "We are pleased to report another solid quarter with impressive financial results. Despite some unfavorable seasonal impacts, our total revenues increased by 28.4% year-over-year, driven by a 26.6% year-over-year increase in our revenues from educational programs. Furthermore, during the quarter, our non-GAAP net income attributable to RISE increased by 37.5% year-over-year to RMB38.9 million and non-GAAP net margin attributable to RISE expanded to 14.4%. Deferred revenue and customer advances as of March 31, 2018 increased to RMB1.07 billion, representing a 31.7% increase compared with the year-end balance of 2017."

Ms. Wang, added, “The seasonality impact on this quarter’s enrollment is more pronounced when compared to an exceptionally high base in the first quarter of 2017, which accounted for 39% of last year’s total enrollments. As a result, our enrollment in self-owned learning centers grew 13.7% from 19,397 students to 22,045 students. With approximately 13-15 new self-owned centers expected to open by the end of 2018, we expect our enrollment growth to accelerate and we anticipate that this quarter’s enrollment will account for approximately 30% of 2018’s full year enrollments. We firmly believe that with our robust revenue growth and enhanced operating efficiency, we are on track to achieve our previously forecasted year-over-year revenue growth of around 30% in the full year of 2018.”

FIRST QUARTER 2018 FINANCIAL RESULTS

Revenues

Total revenues for the first quarter of 2018 increased by RMB59.8 million, or 28.4%, to RMB270.1 million (US\$43.1 million) from RMB210.3 million in the same period of the prior year. This increase was primarily attributable to an increase of RMB47.5 million in revenues from educational programs.

- Revenues from educational programs for the first quarter of 2018 increased by 26.6% to RMB226.2 million (US\$36.1 million), which was primarily due to an increase in the number of student enrollments at self-owned learning centers and online courses in the first quarter. The increase in the Company’s student enrollments was attributable to (i) a higher student retention rate of 71% in this quarter, which we believe was partially driven by the Company’s established brand and growing offerings of reputable products; and (ii) an increase in the number of self-owned learning centers from 54 as of March 31, 2017 to 64 as of March 31, 2018.
- Franchise revenues for the first quarter of 2018 increased by 14.7% to RMB28.2 million (US\$4.5 million), primarily due to (i) an increase in recurring franchise fees during the same period and (ii) a 30.4% increase in the number of franchised learning centers from 168 as of March 31, 2017 to 220 as of March 31, 2018. Franchise revenues have fully reflected the impact of the new revenue standard under ASC 606 which became effective on January 1, 2018.
- Other revenues for the first quarter of 2018 were RMB15.7 million (US\$2.5 million) compared with RMB7.0 million in the same period of the prior year. The increase was primarily due to the revenue contribution from business assets acquired from The Edge Learning Centers Limited, or The Edge, in the fourth quarter of 2017, and a 56.2% year-over-year increase in revenues from Rise Overseas Study Tour.

Cost of Revenues

Cost of revenues for the first quarter of 2018 increased by RMB29.2 million, or 30.3%, to RMB125.5 million (US\$20.0 million), primarily due to increases in rental costs and personnel costs. Rental costs increased as the Company expanded its operations. The increase in personnel costs was primarily attributable to an increase of total teaching hours at the Company’s self-owned learning centers. Non-GAAP cost of revenues for the first quarter of 2018 was RMB125.0 million (US\$19.9 million).

Gross Profit

Gross profit for the first quarter of 2018 increased by RMB30.7 million, or 26.9%, to RMB144.7 million (US\$23.1 million). Gross margin for the first quarter of 2018 was 53.6%.

Operating Expenses

Total operating expenses for the first quarter of 2018 increased by RMB30.3 million, or 41.7%, to RMB102.9 million (US\$16.4 million). Non-GAAP operating expenses for the first quarter of 2018 were RMB100.3 million (US\$16.0 million).

Selling and marketing expenses for the first quarter of 2018 increased to RMB48.5 million (US\$7.7 million), compared with RMB31.3 million for the first quarter of 2017. Non-GAAP selling and marketing expenses for the first quarter of 2018 was RMB47.9 million (US\$7.6 million).

General and administrative expenses for the first quarter of 2018 were RMB54.4 million (US\$8.7 million). Non-GAAP general and administrative expenses for the first quarter of 2018 were RMB52.4 million (US\$8.4 million).

Operating Income and Operating Margin

Operating income for the first quarter of 2018 increased by 0.9% year-over-year to RMB41.8 million (US\$6.7 million). Non-GAAP operating income for the first quarter of 2018 was RMB44.8 million (US\$7.1 million)

Operating margin was 15.5% during the first quarter of 2018, compared with 19.7% in the same period of prior year.

Interest Expense

Interest expense for the first quarter of 2018 was RMB8.2 million (US\$1.3 million), compared with RMB5.2 million in the same period of the prior year. The increase in interest expense was primarily due to a higher principal of the Company's loan from CTBC Bank Co. Ltd. ("CTBC"), which was expanded in September 2017.

Other Income

Other income for the first quarter of 2018 was RMB10.9 million (US\$1.7 million), compared with RMB0.2 million in the same period of the prior year. The Company's ADR depositary reimbursed the Company a total of RMB10.0 million in consideration.

Net Income Attributable to RISE

Net income attributable to RISE for the first quarter of 2018 increased by 26.7% to RMB35.8 million (US\$5.7 million). Net margin attributable to RISE in the first quarter of 2018 was 13.3%, compared with 13.4% in the same period of the prior year. Non-GAAP net income attributable to RISE for the first quarter of 2018 increased by 37.5% year-over-year to RMB38.9 million (US\$6.2 million). Non-GAAP net margin attributable to RISE expanded to 14.4% during the quarter from 13.4% in the same period of the prior year.

EBITDA represents net income before interests, taxes, depreciation and amortization. EBITDA for the first quarter of 2018 was RMB65.9 million (US\$10.5 million), compared with RMB53.6 million in the same period of the prior year. Adjusted EBITDA. Adjusted EBITDA for the first quarter of 2018 increased by 28.6% year-over-year to RMB68.9 million (US\$11.0 million) from RMB53.6 million in the same period of the prior year. Adjusted EBITDA margin was 25.5% in the first quarter of 2018, flat with the same period of the prior year.

Basic and Diluted Earnings per ADS

Basic and diluted net income attributable to RISE per ADS was RMB0.64 (US\$0.10) and RMB0.62 (US\$0.10), respectively, for the first quarter of 2018. Basic and diluted non-GAAP net income attributable to RISE per ADS was RMB0.69 (US\$0.11) and RMB0.67 (US\$0.11), respectively, for the first quarter of 2018.

For details on the calculation of and reconciliation to the nearest GAAP measures for each of non-GAAP net income, EBITDA, and adjusted EBITDA, see "About Non-GAAP Financial Measures" and "Reconciliation of GAAP and Non-GAAP Results."

Cash Flow

Net cash provided by operating activities for the first quarter of 2018 was RMB198.4 million (US\$31.6 million), compared with RMB256.8 million in the same period of the prior year.

Balance Sheet

As of March 31, 2018, the Company had combined cash and cash equivalents, restricted cash and short-term investment of RMB1,054.6 million (US\$168.1 million), compared with RMB1,084.9 million as of December 31, 2017. The decrease of cash and cash equivalents and restricted cash was mainly a result of i) loan repayment of RMB75.9 million (US\$12.0 million) to CTBC in the first quarter of 2018, ii) entrustment loan of RMB150 million (US\$23.9 million) granted to Lionbridge, iii) final payment of termination fee to Bain Advisors of RMB 20.0 million (US\$3.2 million), and iv) final payment of RMB16.6 million (US\$2.6 million) for the acquisition of The Edge.

Current and non-current deferred revenue and customer advances was RMB1,070.1 million (US\$170.6 million) as of March 31, 2018, representing an increase of 31.7% from RMB812.8 million as of December 31, 2017. The increase was primarily due to higher pre-paid tuition and fees from growing student enrollment, which was partially offset by recognized revenue as courses were delivered. Deferred revenue and customer advances mainly consisted of upfront tuition fee payments from students and initial franchise fees from the Company's franchise partners.

Business Outlook

For the second quarter of 2018, the Company expects its total revenues to be in the range of RMB292.5 million to RMB297.1 million, representing a year-over-year growth rate of approximately 29% to 31%. This forecast reflects the Company's current and preliminary view on the market and operational conditions, which is subject to change.

Unless otherwise stated, all translations from RMB to USD were made at the rate of RMB6.2726 to US\$1.00, the noon buying rate in effect on March 31, 2018 in the H.10 statistical release of the Federal Reserve Board. About Non-GAAP Financial Measures

To supplement RISE's financial results presented in accordance with U.S. GAAP, the Company uses non-GAAP financial measures, which are adjusted from results based on U.S. GAAP. Reconciliations of non-GAAP financial measures to U.S. GAAP financial measures are set forth in table at the end of this earnings release titled "Reconciliation of GAAP and Non-GAAP Results," which provides more details on the non-GAAP financial measures.

Non-GAAP cost of revenues, non-GAAP operating expenses, including non-GAAP selling and marketing expenses and non-GAAP general and administrative expenses, provides us with an understanding of the results from the primary operations of our business by excluding the share-based compensation that does not reflect the ordinary operating expenses of our operations.

EBITDA, adjusted EBITDA, adjusted EBITDA margin and non-GAAP net income provide us with an understanding of the results from the primary operations of our business by excluding the effects of certain transaction-related expenses that do not reflect the ordinary EBITDA and net income of our operations.

We use non-GAAP operating expenses, including non-GAAP selling and marketing expenses and non-GAAP general and administrative expenses, non-GAAP operating income, EBITDA, adjusted EBITDA, adjusted EBITDA margin, non-GAAP net income, and non-GAAP basic and diluted net income per ADS attributable to RISE to evaluate our period-over-period operating performance because our management believes these provide a more comparable measure of our continuing business as it adjusts for transaction-related expenses that are not reflective of the normal earnings of our business. These measures may be useful to an investor in evaluating the underlying operating performance of our business, and to enhance investors' overall understanding of the historical and current financial performance of the Company's continuing operations and prospects for the future.

Non-GAAP financial information should not be considered a substitute for or superior to U.S. GAAP results. In addition, calculations of this non-GAAP financial information may be different from calculations used by other companies, and therefore comparability may be limited.
